- b. **INTRODUCTION of Mehrnoosh Zahiri, Community Law Corps City Attorney for HHWNC areas (except Areas 1 & 2):**

- 1. Explanation of the Role of the CLC
- 2. Q&A

Mehrnoosh shared that she was the Wilshire neighborhood prosecutor for ten years until the reorganization. The new unit was established after changes in the office and she's part of the team. The responsibilities are similar in they deal with nuisance issues when LAPD and the Council office have hit a roadblock. They can help because they are now in civil instead of criminal. They don't file cases but have new tools in the civil unit that can be used. The unit is also divided by Council office and she has CD 4 and CD 13. She had 5 to 6 office and most work comes from the Hollywood Division. This is a strong community and they've been able to work on issues together because of the community engagement.

There will be oral interviews and a selection process and hopefully win a month or two they will have someone permanently to replace Ralph Sanchez. The Sr Leads and LAPD are the primary investigators before the city attorney's office can do anything. The new party house ordinance is primarily set up to punish and prosecute absentee property owners. They have seen a shift away from short term rentals since Covid. The issues they've had have been with long term rentals. These nuisances are resolved by working with the Sr Lead Officer. Kurtis Delbar shared that he's had a issue with short term rentals that they are working through with Todd Gillman and planning. They are trying to help with some Air BnB issues. They are also seeing knock knock burglaries in the North Hollywood and Valley Divisions. They will typically send an individual dressed in a construction attire and vest to look legit. Not only do they attend meetings but have mid calls from board members outside of normal meetings. Feel free to reach out with questions. There are three trainings available. Anti Bias is one, and if you've taken it you don't have to retake it. There is a new Code of Conduct that's not on the cornerstone platform yet. Last month there was a question about a motion that was being asked to put on the agenda for this month and I stated that I would report back to the board which I did, to the executive board, and the motion cannot move forward. The Brown Act imposes strict procedural requirements on NC's such as public advance notice of meetings with agendas. As a result, NC agendas should include a listing of the subjects, issues to be discussed generally in the meeting. Topics not on the agenda may not be discussed and cannot be added to the agenda unless they comply with the advance notice requirements of the Brown Act which is 72 hours for regular and 24 hours for special meetings. They are updating NC maps an, letterhead and websites with the new mayor. The team was asked to make sure NC boundaries were clear, if a searchable map is possible and the items are being completed or considered. Meeting minutes have been posted and, in an effort, to make sure minutes are accessible moving forward all minutes from the April 17, 2024 meeting will be posted on HHWNC and the Empower LA website. X. AREA COMMITTEE REPORTS:

- a. **Area 3 – Brian Dyer, Chair:**

1. Milner Hard Street Closure Survey Results.

The results of the Milner Hard Closure will be discussed. Please see attachment. Brian shared there were 739 surveys mailed. 100 to returns for non-deliverable, 100 were taken digitally and hard copy. Counts were done both ways with the 110 surveys returned and 77 were unique. The unique code would prevent a code from being used more than once. The total came out 42 increases and 55% to keep it open and 45% to remove it. These are the hard closures that happen with the bowl reaches 14,000 people. Closures happen at Milner and Camrose meaning residents cant get in or out. Parking officers are ticketing now. The survey allowed people to have their voices heard.

2. ZIMAS database corrections needed.

In September of 2023, the HHWNC Board approved the Area 3 Chair to send a survey to those affected by the Milner Hard Closure during high volume Hollywood Bowl events. While building the survey's recipient list, it became apparent that ZIMAS has many errors. The following motion would be sent as a CIS to the Mayor, Planning and all City Council members if approved. Zimas is based on the assessors county map and for every parcel of land. The city has a requirement that renters be told

about anything that's happening within a 500 ft radius of projects. Based on initial survey responses the city needs to correct their database to reflect renters.

Motion (if applicable): That the HHWNC Board requests of the City that before it rezones, the City take corrective action on the errors in ZIMAS. As the starting point of communication from developers and City organization to the HHWNC stakeholders, and all City stakeholders, ZIMAS falls far short of achieving adequate, transparent notification.

Area 3 Chair Brian Dyer made the motion, 2nd by Community Chair Naomi Kobrin.
Motion passed 15-0

Board / Public Comment: Hilda Boyadjian, Brian Dyer, Dan Bernstein, Paul Jenkins

3. Hollywood Bowl Season Update / LA Phil mitigation

An update from the Hollywood Bowl Advisory Group Meetings, neighborhood concerns, and the Hollywood Bowl's mitigation actions. Brian shared that there were questions regarding a conflict of interest serving on the Hollywood Bowl Advisory Group and the neighborhood council. It has been determined there is no conflict of interest. The group now consists of LA Phil, Live Nation, CD14, CD 13, many HOA's and DOT. HHWNC has two seats. The Bowl and DOT have been given control of multiple signals to improve traffic flow. They have been asked to put electronic no parking signs down to Sunset so people know there is no parking available. They are also putting traffic control officers in the area. LA Phil and Live Nation tickets are encouraging people to purchase parking ahead on their website. If you're interested in hard street closures visit www.hollywood.com/neighbors to receive a text and find out if there are hard street closures in the area. The site can also be used to share problems or suggestions.

Cahuenga Blvd Mainline Replacement Project

Project Description

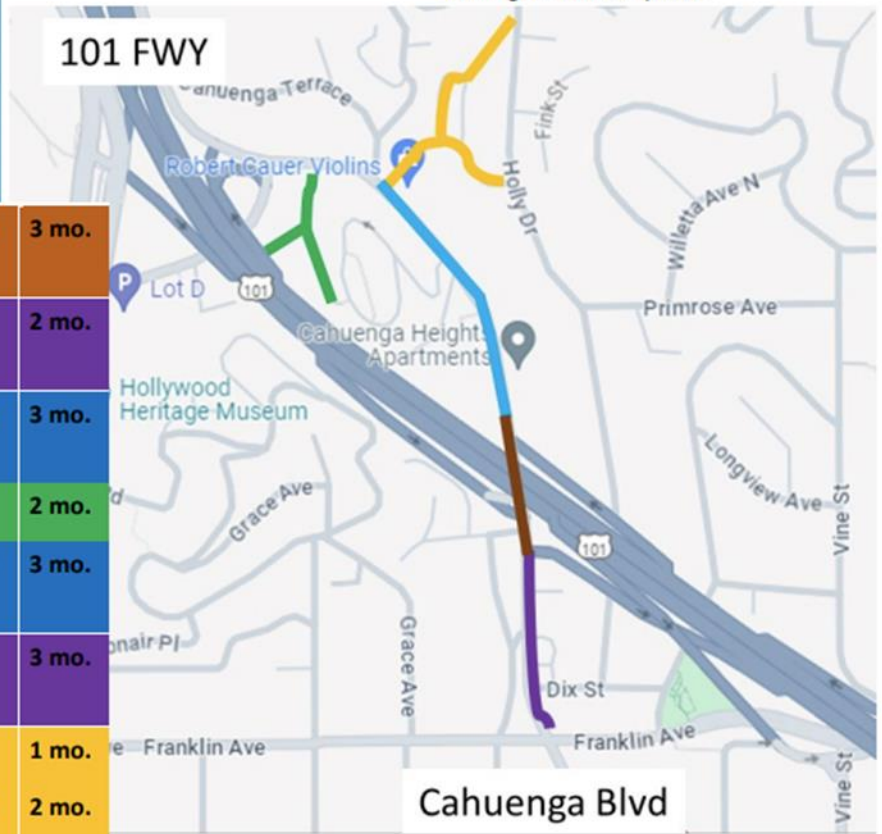

The Cahuenga Blvd pipeline project is a water system infrastructure improvement project that will improve the capacity and reliability of the water system.

The project will replace approximately 5,700 linear feet of existing 6-inch, 8-inch, and 12-inch diameter cast iron pipe with steel and ductile iron pipe along Cahuenga Blvd and several other nearby local streets as shown on the map below.

Construction Information

Construction for this pipeline installation is scheduled to begin in April 2024 and is expected to be completed by September 2025.

LADWP construction crew will install the mainline in eight phases to minimize traffic impacts in the community. The first phase will begin along Cahuenga Blvd within the Cal Trans Right of Way. Once each phase is completed, the crew will then move to the next phase as shown on the map below. Residents will continue having local and driveway access. Street parking will be restricted during construction hours. At the end of each work shift, trenches will be covered with steel plates. HHWNC Milner Hard Closure Survey

- 729 surveys mailed.
- 110 returned non deliverable (ZIMAS needs correcting)
- 100 surveys taken in
- 77 unique

STREETNAME	Yes	No	Comment
EMMET TER	5	3	Evenly based
GRACE AVE	11	12	Lower Grace negatively impacted. Upper Grace wants closure. Furthest street from Milner
LAS PALMAS AVE	11	7	Closest intersection
MILNER ROAD	6	4	
WATSONIA TER	2	1	
WHITLEY AVE	2	6	
WHITLEY TER	5	2	
Total	42	35	55% keep the closure. 45% remove the closure. This percentage stayed steady through both unique and cumulative counts.

From many, many comments, it is apparent from the comments that residents do not understand why they can't be permitted to go around the blockade. Education should be done.

For those who didn't want the closure, the were more passionate in their language.

Below are some comments that were actionable suggestions:

Only on occasional nights of expected higher ride-share usage.
Ideally, there could be a temporary sign clipped to pole at top of Milner-at-Whitley-Terrace noting exit is closed below so neighbors don't drive all the way down to find out. This might apply to Bonair-at-Whitley-Terrace as well.
A \$5 battery operated flashing red light stuck on each sign might be super helpful... just a cheap magnetic LED light. Signage: "Highland Access Currently Closed" 🚧
Still too many cars get through. Ticketing should also go on during these times.
When bowl events create an influx of traffic it's important to have multiple ways to navigate around it and access the Whitley Heights streets.
The closure would be more effective if law enforcement stopped people going up Whitley Ave or Grace, which makes them get stuck at the end of Milner. The cops are too lax.
Need more patrols who actually stop and check cars
6:00 PM is better time for closure than 5:00 PM
We would like a test conducted for high attendance bowl events w/ and w/o closures to see the impact. The test that was done had no control so data inaccurate. Closures only work if the other entrance point to the neighborhood is properly -kept to keep non-resident out. It becomes an issue when let in and none can get out.

HHWNC Milner Hard Closure Survey

Coordinate the TCO at the closure with the LAPD at the top of Whitley. It seems like they don't talk with each other.
